

SuperAntiSpyware

SUPERAntiSpyware is the most thorough scanner on the market. It's Multi-Dimensional Scanning and Process Interrogation Technology will detect spyware other products miss! Easily remove pests such as Zlob, Vundo, DNS-Changer and millions more!

This can be setup to run on start and takes up very little resources so your computer will not be noticeably slowed down.

This is one of the latest programs of its type and is getting good reviews.

A paid version is available that has additional features. See: <http://www.superantispyware.com/>
